PROJECTS

Market app

Java based project|nov 2018.

- Most challenging thing in this project for me was connecting the data base to the front end user interface i took the help of my project faculty to get through the challenge.
- This project is usefull in retails markets where customers can know the total prize of all the items they purchased.

Courier tracking system

Data based project| oct 2019.

- Most challenging thing i faced during this project was conveying the thoughts correctly to the teammates at later half of the project. I have learnt how to communicate with teammates.
- One more challenge we faced as team is convincing the faculty to our idea .We have multiple suggestions from our subject faculty .We had worked hard finally got the good result.

PARTICIPATION

- Runner up in the hockey tournament conducted in our school(2013).
- First prize for our team for drama we performed for annual function in school(2014).
